Skills

HTML5, CSS3, Bootstrap, Bulma, JavaScript (ES6), Ruby, Ruby on Rails, SQL, RSpec, Capybara, Git, GitHub, Heroku.

Education

Microverse

Certificate | August 2019 - present

- 1000+ hours full-stack development training learning, while continuously developed real-world projects using HTML5, CSS3, Ruby, and Ruby on Rails.
- Coursework also included: algorithms, data structures, object-oriented programming principles, RSpec and Capybara testing, REST conventions.
- Developed remote pair-programming skills, while working with international developers, using GitHub and industry-standard git flows.

Universidade Federal do Rio Grande do Sul

Veterinary Medical degree | March 2011 - December 2017

Projects

Facebook Clone | https://github.com/bruna-genz/facebook_clone

- Worked in a pair-programming team with another developer to create a Ruby on Rails application with functionality similar to Facebook.

Capsule Wardrobe Catalogue | https://github.com/bruna-genz/wardrobe_catalogue

- Developed a Ruby on Rails application that allows users to catalog clothes and select them by categories.

Professional Experience

Veterinarian | Vitalvet, Porto Alegre, BR | August 2018 – March 2019

- Helped to develop a new logging system that improved patients' records consultation.
- Organized lunch and learns to improve team knowledge sharing.
- Develop logical and research skills while diagnosing patients' health problems.

Educational Accomplishments

- Achieved first-class honors standing throughout post-secondary studies.
